SUMMARY

Results-driven Full Stack Developer with 2+ years of hands-on experience in designing and building scalable, high-performance web applications using modern technologies across the frontend, backend, and cloud ecosystems. Demonstrated expertise in .NET Core, AngularJS, Azure, Next.js, SQL Server, and DevOps pipelines. Proven ability to lead feature development, enhance system reliability, and mentor junior engineers. Strong advocate of clean code, SOLID principles, and agile delivery.

SKILLS

- Frontend: AngularJS, Next.js, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, ShadCN
- Backend: .NET Core, Node.js, RESTful APIs, Azure Functions
- Programming Languages: C#, C++, Java
- Databases: MS SQL Server
- DevOps & Tools: Azure DevOps, Git, CI/CD, Appwrite, Email OTP Authentication

WORK EXPERIENCE

CG Infinity (Noida, India)

Consultant 2

May 2024 - Present

- Led the backend architecture and implementation of a cloud-native integration platform using Azure Functions (.NET 8 - Isolated Worker Model), setting up service layers, data models, and reusable libraries from scratch.
- Designed and developed scalable RESTful APIs, integrating with over five third-party systems to retrieve and process data, resulting in a 20% increase in platform capability and efficiency.
- Seamlessly integrated external data sources with Salesforce CRM, automating business workflows and improving data sync accuracy and speed.
- Implemented and maintained CI/CD pipelines using Azure DevOps, automating build, test, and deployment processes, leading to a 40% improvement in deployment frequency and a 30% reduction in release errors.
- Mentored 8-10 junior developers, leading to a 20% increase in team productivity.
- Enforced coding best practices through code reviews, reducing production issues by 50%.
- Proactively identified technical debt and proposed refactoring solutions, contributing to long-term maintainability and performance improvements.

CG Infinity (Noida, India)

Consultant 1

May 2023 - April 2024

- Developed and fine-tuned 40+ features and custom components, enhancing application performance and achieving a 60% improvement in speed.
- Formulated and implemented 150+ test cases, boosting software quality and reliability, resulting in 80% fewer defects.
- Participated in code reviews, ensuring adherence to high-quality coding standards and best practices, which led to a 50% reduction in bugs and technical debt.
- Collaborated with cross-functional teams to troubleshoot and resolve 30+ complex technical challenges, improving system reliability and user experience by 40%.
- Developed reusable components and libraries, enhancing code maintainability and scalability, and reducing development time for new features by 25%.

CG Infinity (Noida, India)

Full Stack Developer Intern

May 2022 - April 2023

- Contributed to AngularJS and .NET Core web applications, improving performance by 20%.
- Optimized SQL queries and schema design, reducing response time by 30%.
- Delivered 5+ key features under tight deadlines through close collaboration with senior engineers.

PROJECTS

StoreIt - Cloud Storage Web App

Tech Stack: Next.js, Appwrite, Tailwind CSS, ShadCN

- Built a secure, passwordless file storage app using email OTP authentication.
- Improved UI/UX and data safety through scalable frontend design and backend integration.
- Strengthened full-stack expertise across secure login flows, API design, and deployment.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Chitkara University, Punjab

Aug 2019 - Jul 2023

- CGPA: 9.6

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
